PIAGGIO
Move Beautifully

TOP BOX 50 L.

BUSINESS B **SPORT S**

Capacious, with quick release system. Capable of housing two modular helmets. Upper shell painted the same colour as the vehicle, comfortable passenger backrest finished using the same material and colour as the saddle. Internal document holder and elastic luggage retaining strap.

TOP BOX 37 L.

BUSINESS B **SPORT S**

Quick release top-box. Capable of housing a modular helmet. Upper shell painted the same colour as the vehicle, complete with comfortable passenger backrest finished using the same material and colour as the saddle.

LEG COVER+
606706M

New concept of "hi-end" leg cover to improve all-season riding comfort: designed on the vehicle shape, water resistant, modular and easily convertible accordingly with climate conditions. TPU finishing, innovative anti-waving system with stabilizing inserts, anti-theft, heating system housing and reflecting graphic & Logo.

THERMO-FORMED, QUICK-RELEASE SUITCASES

- **1B002049**
- **1B002032 support kit**

Pair of lateral, impact and vibration resistant thermo-formed suitcases, premium internal and external finishings and design matched with the vehicle. Quick-release system. Capacity 42 lt. needs the mounting support kit P.N. 1B002032

QUICK-RELEASE THERMO-FORMED TOP-BOX

- **1B002052**
- **1B002054 support kit**

Impact and vibration resistant thermo-formed top-boxes, with premium internal and external finishings and design matching that of the vehicle. Quick-release system. Capacity 30 lt. Mount-ing supports kit P.N. 1B002054 supplied separately.

HEATING ACCESSORIES CONTROL UNIT KIT

- **2S000122**

Control the energy absorbed by electrical devices installed on the vehicle, ensuring battery duration and sufficient energy to start the vehicle. Two separate buttons & 4 temperature levels for both leg cover and hand-grips heating units (to be purchased separately).

HEATED HANDGRIPS KIT

- **2S000121**

Increase riding comfort during cold weather. The temperature can be set to four different levels. In order to install this kit, the vehicle must be equipped with the heated accessories control unit 2S000122.

16 LT TUNNEL BAG

- **605650M**

This accessory has been designed to provide extra storage for the most demanding scooter riders. Features an internal storage capacity of 16 lt, plus handle side pockets.

STYLE WINDSCREEN KIT

- **1B006104**

High-quality, splinter-proof windscreen. Guarantees greater air protection. The support bars are produced with finishings that match the other aesthetic details of the vehicle.

LEG COVER WITH HEATING SYSTEM COMPATIBLE

- **605576M011**

Provides excellent protection against the cold, using thermal insulation & WP materials. Maximum stability even at high speeds. Seat-cover and anti-theft system are included. Designed to host a heating unit that keeps warm legs during winter time.

LEG COVER HEATING KIT

- **2S000124**

The original Piaggio leg cover can be fitted with this small electric cover that increases riding comfort during the winter months. The temperature can be set to four different levels. In order to install this kit, the vehicle must be equipped with the heated elements control unit 2S000122.

COMFORT+ SADDLE
■ 2S000119

The Comfort+ saddle maximise the riding comfort thanks to an innovative technology that uses tri-dimensional springs and volume optimisation seat volume. Designed with colour contrast inserts and embossed logo, this saddle is even more exclusive.

INNOVATIVE 3D ELASTIC MATERIAL

COMFORT GEL SADDLE

- 2S000119 MARRONE / BROWN
- 2S000137 NERO / BLACK

The gel inserts guarantee a comfortable ride for both the rider and the passenger.

HANDGRIP COVERS

- 605690M

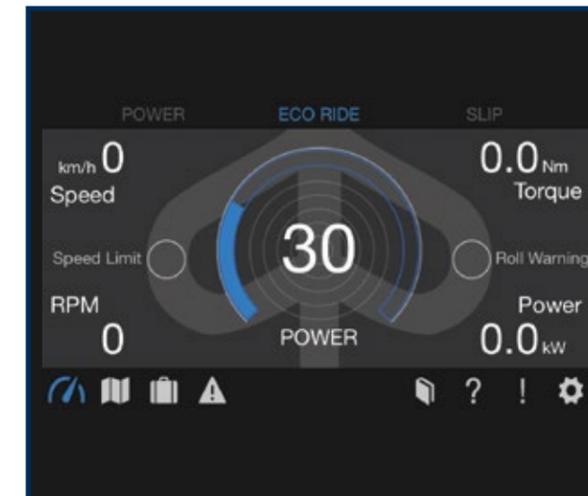

Water-proof Handgrip covers with thermal padding that provide protection even in the coldest weather. Customised with Piaggio logo.

ELECTRONIC ANTI-THEFT DEVICE

- 1D001770
- 1D001738 Installation kit

Anti-theft device for compatible vehicles. With electronic key and remote control.

PIAGGIO MULTIMEDIA PLATFORM 2.0

- 606522M CPU
- 1D001737 Installation kit

The PMP device has been designed to let you connect a smart-phone to your scooter, transforming it into a genuine multimedia platform. To install this device, purchase P.N. 1B001737.

SADDLE-HANDLEBAR MECHANICAL ANTI-THEFT DEVICE

- 605537M028

Extremely simple and easy to use mechanical anti-theft system which anchors the handlebar to the vehicle with a fastener system fixed to the body. Practical, clean, fast, safe, comfortable.

MP3 RACING FOOT-PEDALS KIT

- 605473M

The non-slip aluminum racing foot-pedals give the vehicle a sporty feel.

MULTIMEDIA AND GPS SUPPORT KIT

- 2S000118

Supports all major satellite navigators. It is equipped with a power supply cable for satellite navigators. Compatible with 605923M003, 605923M004 and 605923M005.

SMART PHONE SUPPORT

- 605923M003 Mirror 3,8"
- 605923M004 Mirror 4,3"
- 605923M005 Mirror 5,5"

Includes a support and holder for all major smart-phones. The vehicle is equipped with a standard USB port that can be used to recharge your smart-phone via a power cable. May also be mounted on 2S000118.

BITUBO SPECIAL SHOCK ABSORBERS

■ 606390M only for 500cc

Improved comfort and vehicle response in all driving conditions and on every road surface. Micro-metric adjustment of the variable pitch spring without the use of tools. The hydraulic compression can be adjusted by means of latching knob (no specific tools required). Separate oil/gas tank for improved cooling during heavy usage. Anti-vibration spring guide.

OUTDOOR VEHICLE PROTECTION COVER

■ 605290M001

Outdoor vehicle protection cover, complete with openings designed to accommodate any additional accessories mounted on the vehicle. Black, with reflective strips, transparent window for the number plate and PVC coated chain ring.

PIAGGIO AIRBAG BACKPACK

Airbag Safety Project Backpack with Moto-airbag system: the only pneumatic back protector with certified technology EN1621/4:2013. Using this product - in case of impact the backbone of the pilot is subjected to a residual energy nine times lower than the best rigid back protector level 2. The pneumatic system is inserted in an «active» container designed with the shape of a comfortable backpack, that can be easily used by the pilot without any other specific garment. The backpack, once worn and adjusted, is ready to offer the rider the maximum safety.
